UFRGS' Professor is on Highly Cited Researchers List

First published: November 23, 2020

Professor and researcher at UFRGS and Clinical Hospital of Porto Alegre (HCPA), [Luís Augusto Paim Rohde](#) is, among other 19 Brazilian scientists, part of the world's most-cited researchers list, the Highly Cited Researchers list, published by [Web of Science](#). Rohde is ranked among the 1% group of most influential researchers. According to data, his 366 publications have been cited 12,483 times. Rohde's most cited publication is "[The worldwide prevalence of ADHD: A systematic review and metaregression analysis](#)" (2,744 citations), published in the American Journal of Psychiatry in 2007. The researcher is a Professor of the Faculty of Medicine and the Graduate Program in Psychiatry. Also, he coordinates the [Program on Attention-Deficit/Hyperactivity Disorder \(PRODAH\)](#) at HCPA.

Recently, the scientific journal [Plos Biology](#) published a similar study conducted by Stanford University. See more at "[22 UFRGS Professors are part of the world's most influential researchers list.](#)"
